

Household Model Post Graduate Students 2020-21 - Revised

Members of a household will live next to each other and may share bathroom facilities. Typically, there will be between 4 and 7 student residents in a household. Within households close proximity is permitted. You must remain distant from other households and cannot share facilities.

Outside your household social distance is required (2 metres) and within shared College areas facemasks have to be worn. People can meet in departments, in Oxford and around College but must keep distant and should limit group sizes to no more than 6 people.

If one student in a household has symptoms, everyone must self-isolate. If the case is confirmed the rest of the household will need to self-isolate for 14 days.

4 Ship Street

Room	Bath/ Shower room	Number in Household
